

**BLUESTONE RESOURCES INC.**

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE FINANCIAL POSITION AND RESULTS OF OPERATIONS FOR  
THE THREE MONTHS ENDED MARCH 31, 2020**

The following Management's Discussion and Analysis ("MD&A") of the financial condition and results of operations of Bluestone Resources Inc. ("Bluestone" or the "Company") constitutes management's review of the factors that affected the Company's financial and operating performance for the three months ended March 31, 2020. The MD&A was prepared as of May 20, 2020 and should be read with the condensed interim consolidated financial statements and related notes for the three months ended March 31, 2020, which can be found along with other information of the Company on SEDAR at [www.sedar.com](http://www.sedar.com). All figures are in United States ("U.S.") dollars unless otherwise stated. References to C\$ are to Canadian dollars. The financial statements have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting* of International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS").

**Forward-Looking Statements**

This MD&A contains "forward-looking information" within the meaning of Canadian securities legislation and "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 (collectively, "forward-looking statements"). All statements, other than statements of historical fact, which address activities, events or developments that management believes, expects or anticipates will or may occur in the future are forward-looking statements and often use words such as "expects", "plans", "anticipates", "estimates", "intends", "may" or variations thereof or the negative of any of these terms. Forward-looking statements contained in this MD&A include, but are not limited to statements with respect to the conversion of Inferred Mineral Resources; increasing the amount of Measured and Indicated Mineral Resources; the proposed timeline and benefits of further drilling; the timing of commercial production at the Company's Cerro Blanco Gold project ("Cerro Blanco") and the generation of material revenue by the Company; the proposed timeline, objectives and benefits of the feasibility study on Cerro Blanco titled "Feasibility Study, NI 43-101 Technical Report, Cerro Blanco Project, Guatemala" dated February 14, 2019 with an effective date as of January 29, 2019 and filed on the Company's profile at [www.sedar.com](http://www.sedar.com) on February 13, 2019 (the "Feasibility Study"); statements about the Company's plans for its mineral properties; Bluestone's business strategy, plans and outlook; the future financial or operating performance of Bluestone; capital expenditures, corporate general and administration expenses and exploration and evaluation expenses; expected working capital requirements; proposed production timelines and rates; funding availability; the potential impact of the novel coronavirus ("COVID-19") on the Company and its operations; and future exploration and operating plans.

All forward-looking statements are made based on management's current beliefs, as well as various assumptions made by them and information currently available to them. Generally, these assumptions include, among others: the ability of Bluestone to carry on exploration and development activities; the price of gold, silver and other metals; there being no material variations in the current tax and regulatory environment; the exchange rates among the Canadian dollar, Guatemalan quetzal and the U.S. dollar remaining consistent with current levels; the presence of and continuity of metals at Cerro Blanco at estimated grades; the availability of personnel, machinery and equipment at estimated prices and within estimated delivery times; metals sales prices and exchange rates assumed; appropriate discount rates applied to the cash flows in economic analysis; tax rates and royalty rates applicable to the proposed mining operation; and the availability of acceptable financing.

## **Forward-Looking Statements (cont'd)**

Forward-looking statements are subject to a number of risks and uncertainties that may cause the actual results of the Company to differ materially from those discussed in the forward-looking statements and, even if such actual results are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on, Bluestone. Factors that could cause actual results or events to differ materially from current expectations are included under the heading "*Risks and Uncertainties*" in this MD&A in addition to risks and uncertainties related to expected production rates, timing and amount of production and total costs of production; risks associated with technical difficulties in connection with mining development activities; risks and uncertainties related to the accuracy of estimates of future production, future cash flow, total costs of production and diminishing quantities or grades of Mineral Resources; and risks and uncertainties related to interruptions in production.

Any forward-looking statement speaks only as of the date on which it was made, and, except as may be required by applicable securities laws, Bluestone disclaims any intent or obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements.

## **Qualified Person**

The scientific and technical disclosure in this MD&A has been reviewed and approved by David Cass, P.Geo., Vice President Exploration, who is a Qualified Person as defined by National Instrument 43-101 - Standards of Disclosure for Mineral Projects ("NI 43-101").

## **Overview**

Bluestone is a natural resource company focused on the exploration and development of its 100% owned Cerro Blanco Gold project and Mita Geothermal project ("Mita Geothermal"), both located in Guatemala. Cerro Blanco is a proposed underground gold mining operation located in southeast Guatemala approximately 160 kilometers by road from the capital, Guatemala City. Mita Geothermal is a geothermal energy resource located adjacent to Cerro Blanco. The Company's head and registered office is located at 1020 - 800 West Pender Street, Vancouver, BC, V6C 2V6. The Company's common shares are listed on the TSX Venture Exchange ("TSXV"), trading under the symbol 'BSR', and on the OTCQB, trading under the symbol 'BBSRF'.

## Highlights for the Three Months Ended March 31, 2020

- Entered into a \$30 million credit facility (the "Credit Facility") with Natixis and appointed Jack Lundin as Chief Executive Officer and to the Board of Directors on January 27, 2020. During the three months ended March 31, 2020, \$10 million was drawn from the Credit Facility.
- Reported extension of Cerro Blanco development drift on February 13, 2020. This included sampling of 26.5 g/t Au along 29.3 m of vein.
- Outlined 2020 drill program, which will focus on infill drilling in the Cerro Blanco South Zone and build on the infill drill program recently completed in the North Zone of the deposit.
- Advanced Cerro Blanco project readiness activities, in addition to various confirmation test-work, optimization and basic engineering efforts. The Company continues to build its project execution team, including underground mining and engineering roles.
- Subsequent to the quarter-end, the Company completed a bought deal financing pursuant to which the Company issued 52.6 million common shares of the Company at C\$1.75 per common share and received gross proceeds of \$65.4 million (C\$92.0 million).

## Project Development Updates

### *Cerro Blanco*

The Company has one principal mining property interest, namely Cerro Blanco, a proposed underground gold mining operation located in southern Guatemala. Entre Mares de Guatemala S.A. ("Entre Mares"), a wholly-owned subsidiary of the Company, is the 100% owner of Cerro Blanco.

Optimization and engineering activities were initiated during the quarter with the objective to finalize the mineral process flow sheet and advance key trade-off studies. Project execution planning and project management approaches are currently being updated or refined to include lessons learned from recent gold project developments. Detailed design and engineering are expected to kick-off in the second half of 2020 and much of this work is intended to be performed by mine design and construction experts, in conjunction with current Bluestone personnel, through an integrated team approach.

### Underground development

The Company reported further Cerro Blanco underground development work undertaken as part of an operational readiness and project de-risking initiative ahead of project construction phase. Two development drifts, on two individual veins, one located in the North Zone (VN\_10) and the other in the South Zone (VS\_10), were advanced using the Company's mine equipment and personnel. Channel sampling of veins was undertaken at the drift face after each successive blast as the drift advanced. These new results have been combined with those announced previously (see press release dated September 4, 2019):

- Drift N636 along Vein VN\_10 in the North Zone was extended by 7.5 meters and averaged 18.8 g/t Au and 44 g/t Ag along its total length of 22.4 m (26 samples)
- Drift S314 along Vein VS-10 in the South Zone was extended by 7.7 meters and averaged 26.5 g/t Au and 122 g/t Ag along its total length of 29.3 m (42 samples)

Sampling continues to demonstrate consistent high grades and widths with good continuity, in particular Vein VS-10 which showed an increase in grade in the last drift face sampled, averaging 37.9 g/t Au and 144.8 g/t Ag over 1.0 m (6 samples). Reconciliation of resource block model grades against available muck pile grades (ore and waste) for each drift showed positive results, demonstrating higher average mined grades over block model grades by 19% and 37% for drifts N636 and S314, respectively.

## **Project Development Updates (cont'd)**

### Infill drilling program

The Company's 2020 drill program will primarily focus on infill drilling in Cerro Blanco's South Zone and build on the infill drill program recently completed in the North Zone of the deposit. A total of 9,000 meters, potentially increasing to 12,000 meters, is planned from both surface and underground. The focus of the program will be the definition of extensions to key veins outside of the current Mineral Resource estimate and conversion of Inferred Mineral Resources. Infill drilling was suspended during the three months ended March 31, 2020 due to the COVID-19 pandemic, but has resumed subsequent to the quarter-end.

### Project financing

The Company continued to advance the project financing (debt package) in 2020 Q1. There are multiple workstreams underway in terms of the independent engineer review of both the technical and the environmental and social ("E&S") aspects of Cerro Blanco. Final due diligence reports are expected in 2020 Q2. Refer to the "Liquidity and Capital Resources" section of the MD&A for details of the equity financing completed subsequent to the reporting period.

### Impact of COVID-19 and response measures

In March 2020, the World Health Organization declared a global pandemic related to COVID-19. No COVID-19 cases have been reported from amongst the Company's employee base in Canada or Guatemala. As of March 13, 2020, the Company implemented a work from home policy and asked corporate office staff to work remotely. All travel has been suspended until further notice.

In Guatemala, the Company has implemented a number of measures focused on the well-being of the employees, contractors, their families and the communities in which it operates. These measures are in conjunction with a series of measures introduced by the Government of Guatemala to contain the spread of COVID-19, which includes the closure of international borders and the declaration of a State of Public Calamity through the months of April and May, including the closure of non-essential business activities and a curfew. As a result, the Company reduced the number of employees on site to a minimum in order to maintain vital activities, such as safety and environmental monitoring activities, along with essential services such as power and dewatering activities.

The health and safety of the Company's employees and communities is, and will always be, the Company's top priority. The Company continues to take the necessary steps and actions to ensure their well-being. Given the stage of Cerro Blanco, most aspects of the project can continue to advance without jeopardizing the well-being of stakeholders.

### ***Mita Geothermal***

The Company owns a 100% interest in Mita Geothermal through its wholly-owned subsidiary, Geotermia Oriental de Guatemala, S.A. ("Geotermia"). Mita Geothermal is a geothermal energy resource located adjacent to Cerro Blanco and is 7 km from the Pan American Highway near the town of Asuncion Mita, in the region of Jutiapa in Guatemala. In November of 2015, the Government of Guatemala granted Geotermia a 50-year license to build and operate up to a 50-megawatt geothermal plant. It is currently forecasted that Guatemala's energy matrix will transition to a more renewable mix as Guatemala is committed to promoting more renewable energy and expanding the regional market. According to wholesale power market administrator Administrador del Mercado Mayorista (AMM), the country's effective generation capacity totals 3,440 MW, of which around 1,700 MW is thermo and 1,490 MW hydro, with contributions from wind (107 MW), solar (92 MW) and geothermal (39 MW). It is expected that greater private sector engagement will carry out projects of generation and transmission through the development of public private partnerships. It is also expected that new biddings of energy for 15 year contracts, for renewable generation, will open in 2020, which will be an important incentive for new projects. The Company will continue to evaluate advancement options for Mita Geothermal as these developments occur.

### Results of Operations for the Three Months Ended March 31, 2020 Compared to the Three Months Ended March 31, 2019

The Company's net loss for the three months ended March 31, 2020 totaled \$6,901,328 or \$0.08 per share as compared to a net loss of \$5,175,494 or \$0.08 per share for the three months ended March 31, 2019. Significant expenditures and variances are as follows:

	Three Months Ended March 31, 2020	Three Months Ended March 31, 2019	(Increase) Decrease in Net Loss
Accounting and legal	\$107,773	\$127,062	\$19,289
Advertising and promotion	138,118	395,967	257,849
Corporate listing and filing fees	31,851	26,442	(5,409)
Exploration and evaluation expenses <sup>(1)</sup>	4,098,352	3,487,176	(611,176)
Office and administration	221,414	177,308	(44,106)
Salaries and wages	960,236	712,479	(247,757)
Share-based compensation	238,721	361,746	123,025
<b>Total expenses</b>	<b>(5,796,465)</b>	<b>(5,288,180)</b>	<b>(508,285)</b>
Interest income	31,994	51,985	(19,991)
Finance expenses <sup>(2)</sup>	(749,933)	(32,579)	(717,354)
Accretion expense	(134,947)	(49,111)	(85,836)
Foreign exchange loss	(374,730)	(217,767)	(156,963)
<b>Loss before income tax</b>	<b>(7,024,081)</b>	<b>(5,535,652)</b>	<b>(1,488,429)</b>
Income tax recovery	122,753	360,158	(237,405)
<b>Net loss</b>	<b>(\$6,901,328)</b>	<b>(\$5,175,494)</b>	<b>(\$1,725,834)</b>

<sup>(1)</sup> Exploration and evaluation expenses for the three months ended March 31, 2020 and 2019 were for the following:

	Three Months Ended March 31, 2020	Three Months Ended March 31, 2019
Cerro Blanco operating expenditures	\$2,755,636	\$2,877,529
Cerro Blanco pre-development	1,099,012	305,340
Corporate social responsibility and community relations	157,063	167,653
Mita Geothermal evaluation	—	34,002
Depreciation	86,641	77,018
Other projects	—	25,634
	<b>\$4,098,352</b>	<b>\$3,487,176</b>

<sup>(2)</sup> Finance expenses increased during the three months ended March 31, 2020 compared to the three months ended March 31, 2019 due to the Credit Facility (see "Liquidity and Capital Resources") and project financing activities as discussed in "Project Development Updates".

## Summary of Quarterly Results

The following table summarizes selected financial data reported by the Company for the three months ended March 31, 2020 and the previous seven quarters:

	<b>March 31, 2020</b>	December 31, 2019	September 30, 2019	June 30, 2019	March 31, 2019	December 31, 2018	September 30, 2018	June 30, 2018
Current assets	<b>\$6,212,614</b>	\$3,499,320	\$8,148,314	\$13,080,500	\$16,775,803	\$7,074,710	\$12,231,523	\$17,955,048

Total assets	<b>43,204,825</b>	40,599,490	45,286,909	50,327,226	54,118,624	44,255,376	49,450,151	55,030,177
Current liabilities	<b>12,050,213</b>	3,621,810	2,096,774	1,441,212	1,555,118	2,647,630	2,029,482	2,087,126
Working capital	<b>(5,837,599)</b>	(122,490)	6,051,540	11,639,288	15,220,685	4,427,080	10,202,041	15,867,922
Net loss	<b>(6,901,328)</b>	(7,012,413)	(5,852,904)	(4,255,423)	(5,175,494)	(7,631,841)	(6,101,735)	(6,096,361)
Basic and diluted loss per share	<b>(0.08)</b>	(0.09)	(0.07)	(0.05)	(0.08)	(0.12)	(0.10)	(0.10)
Weighted avg. shares outstanding	<b>82,412,067</b>	81,898,123	81,898,123	81,849,132	66,239,292	63,840,560	63,840,560	63,840,560

During the three months ended March 31, 2020, \$10 million was drawn from the Credit Facility, resulting in an increase to current liabilities. The Company completed a bought deal private placement on March 19, 2019 (the "Private Placement"), which resulted in an increase to share capital. Quarterly results mainly fluctuate due to the level of exploration and evaluation activities, such as drilling programs and Feasibility Study advancement and completion. There are no seasonal fluctuations in the results for the presented periods.

## Liquidity and Capital Resources

Cash increased by \$2,201,780 during the three months ended March 31, 2020 from \$3,030,330 as at December 31, 2019 to \$5,232,110 as at March 31, 2020. Cash utilized in operating activities during the three months ended March 31, 2020 was \$7,771,006 (three months ended March 31, 2019 - \$5,804,566). Cash generated by investing activities during the three months ended March 31, 2020 was \$1,115 (three months ended March 31, 2019 - cash utilized of \$175,582). During the three months ended March 31, 2020, the Company generated cash from financing activities of \$10,071,773, mainly from draws on the Credit Facility, compared to \$15,854,877 during the three months ended March 31, 2019 from the Private Placement.

As at March 31, 2020, share capital was \$97,023,428 and was comprised of 82,827,223 issued and outstanding common shares (December 31, 2019 - \$96,107,883 comprised of 81,898,123 shares outstanding). The increase in outstanding common shares during the three months ended March 31, 2020 was mainly the result of stock option and warrant exercises. Reserves, which decreased due to stock option and warrant exercises, were \$12,462,613 (December 31, 2019 - \$12,502,950). As a result of the net loss for the three months ended March 31, 2020, the deficit at March 31, 2020 increased to \$92,748,681 from \$85,847,353 at December 31, 2019. Accordingly, shareholders' equity on March 31, 2020 was \$21,516,654 compared to \$27,324,713 at December 31, 2019.

At present, the Company's operations do not generate cash inflows and its financial success is dependent on its ability to advance Cerro Blanco and Mita Geothermal. This can take many years and is subject to factors that are beyond the Company's control. See "Risks and Uncertainties".

## Liquidity and Capital Resources (cont'd)

In order to finance the Company's operations, the Company has raised money through the sale of equity instruments, the exercise of convertible securities and the Credit Facility. Many factors influence the Company's ability to raise funds, including the health of the resource market, the climate for mineral exploration and resource development investments, the Company's track record, the economics of the Feasibility Study and the experience and caliber of its management. Actual funding requirements may vary from those planned due to a number of factors, including the progress and results of drilling activities. Management believes it will be able to raise equity capital and/or debt as required, but recognizes there will be risks involved that may be beyond its control.

As at March 31, 2020, the Company had a working capital deficiency of \$5,837,599. Subsequent to March 31, 2020, the Company completed a bought deal financing pursuant to which the Company issued 52,578,000 common shares of the Company at C\$1.75 per common share and received gross proceeds of \$65,414,119 (C\$92,011,500). This financing is expected to provide sufficient funding to meet the Company's commitments and foreseeable corporate needs, including expenditures required to maintain properties and agreements in good standing.

### Credit Facility

On January 27, 2020, the Company entered into the \$30,000,000 "Credit Facility" with Natixis, a French multinational financial services firm. Loans under the Credit Facility (the "Loans") are made available through multiple borrowings. The annual interest rate on the Loans are set based on US LIBOR plus a margin equal to 0.45%. A commitment fee equal to 0.20% per annum on the unused portion of the Credit Facility is payable quarterly in arrears during the availability period. The Loans can be repaid at any time in whole or in part subject to a minimum notice period without penalty. The maturity date for the Loans is the earlier of (i) the one-year anniversary of the Credit Facility and (ii) the occurrence of certain events, including funding pursuant to a potential senior debt project financing. As of March 31, 2020, the Company has Loans payable of \$10,000,000.

The Loans are supported by a guarantee from Nemesia S.à.r.l. ("Nemesia"). The guarantee is secured by a cash collateral held with Natixis, equal to at least the principal and anticipated interest and fees through maturity of the Loans. In consideration for the guarantee from Nemesia, the Company issued 85,000 common shares to Nemesia with a fair value of \$98,012. Nemesia is an affiliate of Zebra Holdings and Investment S.à.r.l. and Lorito Holdings S.à.r.l. (collectively with Nemesia, the "Lundin Entities"), both of which are companies controlled by a trust settled by the late Adolf H. Lundin. The Lundin Entities are shareholders of the Company, making them a related party.

The Company entered into a debenture (the "Debenture") with Nemesia which provides a repayment mechanism in the event of default with Natixis. The Debenture allows for the automatic draw down of funds in an amount up to \$14,000,000 if the Company defaults on the Loans and Natixis realizes on the cash collateral provided by Nemesia. The Debenture may be increased up to \$32,000,000 (an amount equivalent to the Credit Facility plus potential interest) at the request of Nemesia but subject to approval of shareholders of the Company. If the Debenture is increased to \$32,000,000, an additional 100,000 common shares of the Company will be issued to Nemesia. An additional 3,500 common shares of the Company will be issued to Nemesia for each \$500,000 draw down per month until repayment under terms of the Debenture.

## Risks and Uncertainties

Bluestone is subject to a number of risks and uncertainties including, but not limited to the following:

- Operations in Guatemala
- Global epidemics or pandemics or other health crises
- Licenses and title to assets
- Maintaining and obtaining licenses and permits
- Environmental hazards
- Governmental laws and regulations
- Community action
- Uncertainty of development projects
- Estimates of Mineral Reserves and Resources
- The business of exploration for minerals and mining involves a high degree of risk
- Anti-corruption laws
- Tax risks
- Reliance on third parties and risk associated with foreign subsidiaries
- Property commitments
- Limited operational history
- Substantial capital requirements
- Acquisition risk
- Future sales or issuances of common shares
- Competition
- Dependence on key personnel
- Changes in climate conditions
- Control person of the Company
- Public company requirements
- Marketability of natural resources
- Conflicts of interest
- Uninsurable risks
- Infrastructure
- Price volatility of publicly traded securities
- Risk of fines and penalties
- The successful development of Cerro Blanco and Mita Geothermal cannot be guaranteed
- Information systems

An analysis of these risks and uncertainties, as they have the potential to impact Bluestone, can be found in Bluestone's Annual Information Form and MD&A for the year ended December 31, 2019. The risks and uncertainties have not changed from those disclosed in Bluestone's Annual Information Form and MD&A for the twelve months ended December 31, 2019.

### Outstanding Share Data

Bluestone's authorized capital consists of an unlimited number of common shares and an unlimited number of preferred shares without par value. No preferred shares have been issued to date. The following common shares, options and share purchase warrants are outstanding as at May 20, 2020:

	Number of Shares	Exercise Price C\$	Remaining life (years)
Issued and Outstanding Common Shares	136,386,653		
Stock options	7,435,000	1.15 - 1.50	0.09 - 4.83
Warrants	11,673,042	0.35 - 1.65	0.04 - 0.83
<b>Fully diluted at May 20, 2020</b>	<b>155,494,695</b>		

### Off Balance Sheet Arrangements

The Company does not utilize off balance sheet arrangements.

### Transactions with Related Parties

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company. The Company has determined that key management personnel consist of certain executive and non-executive members of the Company's Board of Directors and corporate officers. The remuneration of key management personnel included in the consolidated statements of loss were as follows:

	Three Months Ended March 31, 2020	Three Months Ended March 31, 2019
Salaries	<b>\$651,532</b>	\$433,233
Share-based compensation	<b>191,329</b>	251,331
	<b>\$842,861</b>	\$684,564

Accrued compensation due to key management as at March 31, 2020 was \$275,203 (December 31, 2019 - \$721,435).

### Financial Instruments and Financial Risk Management

A description of the Company's financial instruments and financial risk management can be found in notes 10 and 11, respectively, of the Company's condensed interim consolidated financial statements for the three months ended March 31, 2020.

### Significant Accounting Policies, Estimates and Judgments

A description of the Company's significant accounting policies, estimates and judgments, can be found in note 2, of the Company's audited consolidated financial statements for the year ended December 31, 2019.

## Disclosure of Internal Controls

Management has established processes to provide them with sufficient knowledge to support representations that they have exercised reasonable diligence that: (i) the condensed interim consolidated financial statements for the three months ended March 31, 2020 do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, and (ii) the condensed interim consolidated financial statements for the three months ended March 31, 2020 fairly present in all material respects the financial condition, results of operations and cash flow of the Company.

In contrast to the certificate required for non-venture issuers under National Instrument 52-109 – Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"), the Venture Issuer Basic Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as defined in NI 52-109. In particular, the certifying officers filing the certificate are not making any representations relating to the establishment and maintenance of:

1. Controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
2. A process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's generally accepted accounting principles.

The issuer's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in the certificate. Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer to design and implement on a cost-effective basis DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

## Approval

The Board of Directors of Bluestone has approved the disclosure contained in this MD&A on May 20, 2020. A copy of this MD&A will be provided to anyone who requests it.
